Is the Thought of Student Loan Debt Keeping You Awake?

Today's college graduates are graduating with record amounts of student loan debt; by one report the total student loan debt in the U.S. is just over \$1.2 trillion. Most students are very concerned about their ability to pay their loans back. All students and their parents who are either applying for student loans, or who have already borrowed money and need to know more, should attend Fox Communities Credit Union's seminar on student loan debt.

The difference between Federal and private loans, different types of Federal repayment plans, student loan deferment and forbearance, and consolidation of loans will all be discussed.

Join us on Wednesday, September 20, at Fox Communities Credit Union, 3401 E. Calumet St., Appleton, or at Tundra Lodge and Conference Center, 865 Lombardi Ave., Green Bay on Thursday, September 21. Each one hour seminar will be presented at 6:00 pm.

Our presenter, Peter Spaeth, is a certified student loan counselor as well as a certified consumer credit counselor. He's been with Financial Information and Service Center (FISC) for over six years.

Register at www.foxcu.org or by calling the Call Center at (920) 993-9000. This seminar is free and open to the public.

Fox Communities Credit Union is 80 years strong. Fox started as Combined Locks Credit Union in 1937 with a small office in the Locks Mill to serve the employees by giving them financial opportunities. In 1987 we became Fox Communities Credit Union and opened our charter to serve the community. Since that time we have had various partnerships, and today we serve over 99,000 members in 12 counties with 22 branches in all of those communities.

We also put people over profits, by living the People Helping People credit union mantra. We are locally owned and managed and are committed to making significant contributions to the local areas we serve. We also have almost 400 employees employed in our communities.
